JOURNAL OF ELECTROANALYTICAL CHEMISTRY

Subject index

Acidic media
Study of nickel upd at a polycrystalline Pt electrode and its influence on HCOOH oxidation in acidic and nearly neutral media 81
Adsorption
Kinetics of electrochemical processes in the system: silver|cyanide solutions 109
Reaction mechanism and partial charge transfer of Tl|Tl$^+$-systems studied by impedance spectroscopy (SSSS method). Part 1. The Tl(Hg)|Tl$^+$-reaction in the presence of SCN$^-$ 211
Adsorption isotherm
Large signal (global) analysis of non-linear response of electrocatalytic reaction. I. Multiple steady states 97
Adsorption, pyridine, aniline
Pyridine and aniline adsorption from an apolar solvent: the role of the solid adsorbent 17
AFM/STM
In situ AFM/STM characterization of porphyrin electrode films for electrochemical detection of neurotransmitters 63
Al_2O_3 films
Development of a theory for the determination of the composition of the anodizing solution inside the pores during the growth of porous anodic Al_2O_3 films on aluminium by a transport phenomenon analysis 25
α-Al_2O_3 powders
Pyridine and aniline adsorption from an apolar solvent: the role of the solid adsorbent 17
Amalgam reactions
Reaction mechanism and partial charge transfer of Tl|Tl$^+$-systems studied by impedance spectroscopy (SSSS method). Part 1. The Tl(Hg)|Tl$^+$-reaction in the presence of SCN$^-$ 211
Anion Adsorption
Voltammetric measurement of anion adsorption on Ag(111) 43
Anodic oxidation
Electrochemical thermospray mass spectrometry—anodic oxidation of *N*,*N*-dialkylanilines 117
Anodizing solution
Development of a theory for the determination of the composition of the anodizing solution inside the pores during the growth of porous anodic Al_2O_3 films on aluminium by a transport phenomenon analysis 25
Anthraquinone
Synthetic and electrochemical studies of anthraquinone-substituted poly(pyrrole) films 91
Au(111)
Vibrational spectroscopic study of the adsorption of pyridine at the Au(111)-electrolyte interface by in situ difference frequency generation 5

Biosensors
In situ AFM/STM characterization of porphyrin electrode films for electrochemical detection of neurotransmitters 63

Channel electrode
The electrochemical oxidation of cobalt tris(dithiocarbamates) and tris(diselenocarbamates) in acetonitrile; a combined spectroscopic and voltammetric study 155

Charge transfer kinetics
Potential-modulated reflectance spectroscopy of the methyl orange transfer across the water|1,2-dichloroethane interface 125
Cobalt tris(diselenocarbamate)
The electrochemical oxidation of cobalt tris(dithiocarbamates) and tris(diselenocarbamates) in acetonitrile; a combined spectroscopic and voltammetric study 155
Cobalt tris(dithiocarbamate)
The electrochemical oxidation of cobalt tris(dithiocarbamates) and tris(diselenocarbamates) in acetonitrile; a combined spectroscopic and voltammetric study 155
Composition
Development of a theory for the determination of the composition of the anodizing solution inside the pores during the growth of porous anodic Al_2O_3 films on aluminium by a transport phenomenon analysis 25
Contact electric resistance (CER) technique
Characterization of a poly(3-methyl thiophene) film by an in-situ dc resistance measurement technique and in-situ FTIR spectroelectrochemistry 135
Cyanide ion
Kinetics of electrochemical processes in the system: silver|cyanide solutions 109
Cyanomyoglobin
Spectroelectrochemical and electrochemical determination of ligand binding and electron transfer properties of myoglobin, cyanomyoglobin, and imidazolemyoglobin 53
Cyclic voltammetric technique
Study of nickel upd at a polycrystalline Pt electrode and its influence on HCOOH oxidation in acidic and nearly neutral media 81
Cyclic voltammetry
Synthetic and electrochemical studies of anthraquinone-substituted poly(pyrrole) films 91
The effect of magnesium ion on the electrochemistry of cytochrome c and cytochrome b_5 at a gold electrode modified with cysteine 187
The electrochemical oxidation of cobalt tris(dithiocarbamates) and tris(diselenocarbamates) in acetonitrile; a combined spectroscopic and voltammetric study 155
Voltammetric measurement of anion adsorption on Ag(111) 43
Cyt c/Cyt b_5 complex
The effect of magnesium ion on the electrochemistry of cytochrome c and cytochrome b_5 at a gold electrode modified with cysteine 187
Cytochrome b_5
The effect of magnesium ion on the electrochemistry of cytochrome c and cytochrome b_5 at a gold electrode modified with cysteine 187
Cytochrome c
The effect of magnesium ion on the electrochemistry of cytochrome c and cytochrome b_5 at a gold electrode modified with cysteine 187

PII S0022-0728(98)000146-6

Difference frequency generation
Vibrational spectroscopic study of the adsorption of pyridine at the Au(111)-electrolyte interface by in situ difference frequency generation 5
Digital simulation
Use of sensitivity analysis methods in the modelling of electrochemical transients. Part 2. Model expansion and model reduction 173

Electrocatalysis
Large signal (global) analysis of non-linear response of electrocatalytic reaction. I. Multiple steady states 97
Redox and electrocatalytic properties of electrodes modified by films of polypyrrole nickel(II) Schiff-base complexes 147
Electrochemical interface
Vibrational spectroscopic study of the adsorption of pyridine at the Au(111)-electrolyte interface by in situ difference frequency generation 5
Electrochemical kinetics
Use of sensitivity analysis methods in the modelling of electrochemical transients. Part 2. Model expansion and model reduction 173
Electrochemical simulations
The electrochemical oxidation of cobalt tris(dithiocarbamates) and tris(diselenocarbamates) in acetonitrile; a combined spectroscopic and voltammetric study 155
Electrode reaction
Kinetics of electrochemical processes in the system: silver|cyanide solutions 109
Electron transfer properties
Spectroelectrochemical and electrochemical determination of ligand binding and electron transfer properties of myoglobin, cyanomyoglobin, and imidazolemyoglobin 53
Electropolymerized films
Redox and electrocatalytic properties of electrodes modified by films of polypyrrole nickel(II) Schiff-base complexes 147
Electrosorption
Large signal (global) analysis of non-linear response of electrocatalytic reaction. I. Multiple steady states 97
External redox probes
Impedance analysis of self-assembled naphthalene disulfide monolayer on gold using external redox probes 11

Gold
Impedance analysis of self-assembled naphthalene disulfide monolayer on gold using external redox probes 11
Graphite
In situ AFM/STM characterization of porphyrin electrode films for electrochemical detection of neurotransmitters 63

Hydrogen oxidation
Influence of Nafion® film on the kinetics of anodic hydrogen oxidation 201

Imidazolemyoglobin
Spectroelectrochemical and electrochemical determination of ligand binding and electron transfer properties of myoglobin, cyanomyoglobin, and imidazolemyoglobin 53
Impedance
Reaction mechanism and partial charge transfer of Tl|Tl^+-systems studied by impedance spectroscopy (SSSS method). Part 1. The Tl(Hg)|Tl^+-reaction in the presence of SCN^- 211
Impedance analysis
Impedance analysis of self-assembled naphthalene disulfide monolayer on gold using external redox probes 11
In-situ dc resistance measurement technique
Characterization of a poly(3-methyl thiophene) film by an in-situ dc resistance measurement technique and in-situ FTIR spectroelectrochemistry 135
In-situ external reflectance FTIR spectroscopy
Characterization of a poly(3-methyl thiophene) film by an in-situ dc resistance measurement technique and in-situ FTIR spectroelectrochemistry 135
Ion sensing
Electrochemical molecular recognition by thin films of ether-substituted polythiophenes 1
Iron powders
Pyridine and aniline adsorption from an apolar solvent: the role of the solid adsorbent 17

Kinetic model
Large signal (global) analysis of non-linear response of electrocatalytic reaction. I. Multiple steady states 97

Ligand binding
Spectroelectrochemical and electrochemical determination of ligand binding and electron transfer properties of myoglobin, cyanomyoglobin, and imidazolemyoglobin 53

Mechanism of electrode reactions
Reaction mechanism and partial charge transfer of Tl|Tl^+-systems studied by impedance spectroscopy (SSSS method). Part 1. The Tl(Hg)|Tl^+-reaction in the presence of SCN^- 211
Membrane-covered electrode
Influence of Nafion® film on the kinetics of anodic hydrogen oxidation 201
Methyl orange
Potential-modulated reflectance spectroscopy of the methyl orange transfer across the water|1,2-dichloroethane interface 125
Model reduction
Use of sensitivity analysis methods in the modelling of electrochemical transients. Part 2. Model expansion and model reduction 173
Molecular recognition
Electrochemical molecular recognition by thin films of ether-substituted polythiophenes 1
Multiplicity of states
Large signal (global) analysis of non-linear response of electrocatalytic reaction. I. Multiple steady states 97
Myoglobin
Spectroelectrochemical and electrochemical determination of ligand binding and electron transfer properties of myoglobin, cyanomyoglobin, and imidazolemyoglobin 53

Nafion®
Influence of Nafion® film on the kinetics of anodic hydrogen oxidation 201
Naphthalene disulfide
Impedance analysis of self-assembled naphthalene disulfide monolayer on gold using external redox probes 11
Nearly neutral media
Study of nickel upd at a polycrystalline Pt electrode and its influence on HCOOH oxidation in acidic and nearly neutral media 81
Neurotransmitters
In situ AFM/STM characterization of porphyrin electrode films for electrochemical detection of neurotransmitters 63
Nickel upd process
Study of nickel upd at a polycrystalline Pt electrode and its influence on HCOOH oxidation in acidic and nearly neutral media 81

N,*N*′-dialkylanilines
Electrochemical thermospray mass spectrometry—anodic oxidation of *N*,*N*-dialkylanilines 117
N,*N*-dimethylaniline
Electrochemical thermospray mass spectrometry—anodic oxidation of *N*,*N*-dialkylanilines 117
N,*N*-ethylmethylaniline
Electrochemical thermospray mass spectrometry—anodic oxidation of *N*,*N*-dialkylanilines 117
Non-linearity
Large signal (global) analysis of non-linear response of electrocatalytic reaction. I. Multiple steady states 97
Numerical evaluation of kinetic parameters
Reaction mechanism and partial charge transfer of $Tl|Tl^+$-systems studied by impedance spectroscopy (SSSS method). Part 1. The $Tl(Hg)|Tl^+$-reaction in the presence of SCN^- 211

Oxidation of HCOOH
Study of nickel upd at a polycrystalline Pt electrode and its influence on HCOOH oxidation in acidic and nearly neutral media 81

Partial charge transfer
Reaction mechanism and partial charge transfer of $Tl|Tl^+$-systems studied by impedance spectroscopy (SSSS method). Part 1. The $Tl(Hg)|Tl^+$-reaction in the presence of SCN^- 211
PEMFC
Influence of Nafion® film on the kinetics of anodic hydrogen oxidation 201
Phase transition
Vibrational spectroscopic study of the adsorption of pyridine at the Au(111)-electrolyte interface by in situ difference frequency generation 5
Polymerization
In situ AFM/STM characterization of porphyrin electrode films for electrochemical detection of neurotransmitters 63
Poly(3-methyl thiophene) film
Characterization of a poly(3-methyl thiophene) film by an in-situ dc resistance measurement technique and in-situ FTIR spectroelectrochemistry 135
Poly(pyrrole)
Synthetic and electrochemical studies of anthraquinone-substituted poly(pyrrole) films 91
Polythiophene
Electrochemical molecular recognition by thin films of ether-substituted polythiophenes 1
Pores
Development of a theory for the determination of the composition of the anodizing solution inside the pores during the growth of porous anodic Al_2O_3 films on aluminium by a transport phenomenon analysis 25
Porphyrin
In situ AFM/STM characterization of porphyrin electrode films for electrochemical detection of neurotransmitters 63
Potential distribution
Potential-modulated reflectance spectroscopy of the methyl orange transfer across the water|1,2-dichloroethane interface 125
Potential-modulated reflectance
Potential-modulated reflectance spectroscopy of the methyl orange transfer across the water|1,2-dichloroethane interface 125
Potential-step chronocoulometry
The effect of magnesium ion on the electrochemistry of cytochrome c and cytochrome b_5 at a gold electrode modified with cysteine 187
Pt electrode
Study of nickel upd at a polycrystalline Pt electrode and its influence on HCOOH oxidation in acidic and nearly neutral media 81
Pyridine
Vibrational spectroscopic study of the adsorption of pyridine at the Au(111)-electrolyte interface by in situ difference frequency generation 5
Pyrrole
Synthetic and electrochemical studies of anthraquinone-substituted poly(pyrrole) films 91

Reaction mechanisms
Use of sensitivity analysis methods in the modelling of electrochemical transients. Part 2. Model expansion and model reduction 173
Rotating disk electrode
Influence of Nafion® film on the kinetics of anodic hydrogen oxidation 201

Schiff-base complexes
Redox and electrocatalytic properties of electrodes modified by films of polypyrrole nickel(II) Schiff-base complexes 147
Second-harmonic
Second harmonic generation from silver single-crystal electrodes 71
Self-assembled monolayer
Impedance analysis of self-assembled naphthalene disulfide monolayer on gold using external redox probes 11
Sensitivity analysis
Use of sensitivity analysis methods in the modelling of electrochemical transients. Part 2. Model expansion and model reduction 173
Silver (111)
Voltammetric measurement of anion adsorption on Ag(111) 43
Silver
Second harmonic generation from silver single-crystal electrodes 71
Silver electrode
Kinetics of electrochemical processes in the system: silver|cyanide solutions 109
Single-crystal electrodes generation
Second harmonic generation from silver single-crystal electrodes 71
Spectroelectrochemical analysis
Spectroelectrochemical and electrochemical determination of ligand binding and electron transfer properties of myoglobin, cyanomyoglobin, and imidazolemyoglobin 53
Steady-state
Large signal (global) analysis of non-linear response of electrocatalytic reaction. I. Multiple steady states 97

Thallium
Reaction mechanism and partial charge transfer of $Tl|Tl^+$-systems studied by impedance spectroscopy (SSSS method). Part 1. The $Tl(Hg)|Tl^+$-reaction in the presence of SCN^- 211
Thermospray mass spectrometry
Electrochemical thermospray mass spectrometry—anodic oxidation of *N*,*N*-dialkylanilines 117
Thin organic films
Electrochemical molecular recognition by thin films of ether-substituted polythiophenes 1
Thiocyanate
Reaction mechanism and partial charge transfer of $Tl|Tl^+$-systems studied by impedance spectroscopy (SSSS method). Part 1. The $Tl(Hg)|Tl^+$-reaction in the presence of SCN^- 211

Thiophene
Synthetic and electrochemical studies of anthraquinone-substituted poly(pyrrole) films 91
Transient methods
Use of sensitivity analysis methods in the modelling of electrochemical transients. Part 2. Model expansion and model reduction 173
Transport analysis
Development of a theory for the determination of the composition of the anodizing solution inside the pores during the growth of porous anodic Al_2O_3 films on aluminium by a transport phenomenon analysis 25
Water|1,2-dichloroethane interface
Potential-modulated reflectance spectroscopy of the methyl orange transfer across the water|1,2-dichloroethane interface 125

XPS data
Pyridine and aniline adsorption from an apolar solvent: the role of the solid adsorbent 17
